

GOOD CYCLES MOBILE SERVICING

Expert bike servicing that comes to you.

Reward your staff for cycling to work or provide an exceptional service for your building tenants with Good Cycles' mobile bike servicing.

We provide convenient on-site bike servicing to organisations across the Melbourne CBD. Commuters simply ride in on service day and their bike will be running smoothly and safely again for the ride home!

Tune Ups

**2.5 hour session
(covers approx. 20 bikes)**

Our expert mechanics will come to your premises and tune up approx. 20 bikes, with a focus on safety and assessment.

A tune up includes:

- a safety check;
- tyres pumped;
- chain lubricated; and
- brakes and gears adjusted.

A 2.5 hour tune up session costs \$350.

Bike Servicing

**Half day (min. 4 bikes)
Full day (min. 8 bikes)**

Our expert mechanics will undertake a standard service on your commuters' bikes. A standard service includes:

- checking, adjusting and cleaning brakes, bars, chains, bearings, nuts and bolts and frame;
- checking tyre pressure;
- an operation check;
- assessment of bottom bracket and headset bearings; and
- a safety inspection.

The service may include replacement parts such as brake pads, cables and inner tubes. Any major work or more expensive parts will be discussed before our mechanics proceed.

Bike servicing starts at \$77 per bike, with a typical service costing \$80–\$120.

Bike Maintenance Workshops

Duration varies

Our expert mechanics facilitate workshops on:

- basic bicycle maintenance;
- how to change a flat tyre;
- sizing of tyres and tubes;
- why punctures occur and what causes them; and
- basic brake and gear adjustment.

We also discuss rider education points such as safe riding procedures, correct locking procedures, best use of gears, hand signalling and bike laws.

Please email bookings@goodcycles.org to discuss your workshop needs.

01/ WHAT WE OFFER

The Good Cycles mission is to provide employment opportunities and support at-risk and disadvantaged young people to transition into the open job market. We do this by supporting employment that includes work experience within our commercial operations.

100% of our profits go towards achieving our mission. By using our services, you will be directly helping to create better futures for the young people we work with.

02/ WHY CHOOSE US

We handle the majority of the process to make it as easy as possible for you. Here's how it'll all work:

You contact us with a date and package that suits your needs.

We create an Eventbrite page and provide promotional material for you to circulate to your staff to encourage them to book a service.

We coordinate details and building access with your building manager prior to servicing day.

We follow up with you to make sure you're happy with our event organisation and management.

We follow up with riders to make sure they're happy with our servicing.

Our expert mechanics come and provide exceptional servicing.

03/ HOW IT WORKS

We're flexible with how our bill gets paid. We've come up with a couple of options that we hope will work for you:

1

Organisation Pays

Your organisation pays for the service as a thank you to your people or your tenants and to encourage more people to ride to work.

3

Help A Rider Out

You subsidise the cost of servicing for your staff by funding a part of the servicing fee.

2

Rider Pays

You book us to attend your premises, but each commuter pays for their individual bike service. We have EFTPOS machines that we bring with us on the day. Staff can book a scheduled bike service and enjoy the convenience of having our expert mechanics come to their workplace.

4

Reward Your People

Purchase Good Cycles' gift vouchers and distribute them via raffles, rewards or giveaways. These gift vouchers can then be used for mobile servicing when we are on-site or can be redeemed at our Good Cycles Docklands store for bike servicing.

04/ FLEXIBLE PAYMENT OPTIONS
