# Good Cycles

Founded in 2013, Good Cycles is a social enterprise tackling youth unemployment.

We provide supported employment that prepares young people at risk of disengagement for better futures and quality jobs.

With the support of our partners, we run a range of retail, maintenance & logistics enterprises. Today, more than 80% of our revenue comes from commercial activities.

100% of our profit is reinvested in creating jobs and removing employment barriers affecting young people.

# About Good Cycles

---

## Our vision

Creating inclusive cities and better livelihoods through sustainable solutions.

---

## Our mission

Good Cycles empowers young people facing barriers to work by offering them employment pathways. We improve their futures and contribute to more sustainable cities.

# Retail shops

---

## Our corporate partners

# Who we support

- Young people with barriers to employment
- Long-term unemployed
- Disengaged and socially isolated
- Young people with physical or mental health issues
- People exiting out of home care or justice settings
- Refugee migrants and asylum seekers
- Aboriginal and Torres Strait Islander youth
- LGBTQI+

“I’ve learned that I can enjoy work and actually look forward to my day rather than just persisting for the sake of income and stability.”

Eve,  
Good Cycles Program Participant

# Our funders

## Sangeeta's Story

Despite her many skills, Sangeeta had difficulty securing steady work after she migrated from India, and as a migrant, she was not eligible for job seeker payments when COVID-19 hit. Good Cycles helped Sangeeta maintain a stable income, make local connections and identify opportunities to develop her career.

## AI's Story

When AI was referred to Good Cycles he wanted the chance to turn things around and build a positive future. Experience in three Good Cycles enterprises helped him find a path and a purpose. Life has evened out and he is learning from the best to become a bike mechanic.

“Good Cycles is doing tremendous work to support employment opportunities for some of our most vulnerable.”

Wade Noonan,  
Former Minister for Industry & Employment
